The screenshot displays the Visual Studio interface for a project named 'WebApplication5'. The main window shows the 'Overview' tab for an 'ASP.NET Core' project, with instructions to 'Learn about the .NET platform, create your first application and extend it to the cloud.' Below this, there are icons for code, cloud, and tools. The 'Output' window at the bottom shows the results of a 'Package Manager' operation, indicating that the restore completed in 2.58 seconds. The 'Team Explorer' pane on the right shows the 'Synchronization' view, which is currently 'Offline'. It lists 'Incoming Commits' and 'Outgoing Commits', both with 'No repository selected'.

The image shows a Visual Studio IDE with a WebApplication3 project. The solution explorer on the left shows the project structure. The output window at the bottom shows the build process. The Git repository window on the right shows the commit history and a terminal with git commands.

Git Repository Window:

- Commit History:**
 - Commit: a06026a2c3411af4cc06874926af2e5174163 [a06026a]
 - Author: Anton Evers <anton.evers@kaga.nl>
 - Date: Wednesday, April 17, 2013 4:04:07 PM
 - Committer: Anton Evers
- File Status:**
 - demo.html
 - js/gh/jquery.imagesloaded.js

Terminal Window:

```

C:\Dev\Repos\PnP [solution-governance-appprincipal-expirationjob]
